If you make a sale, you can make a living,
if you make an investment of time & service in a customer,
you can make a fortune.

About Us

Pratik Cabletray Private Limited has known as an India's leading Cable Tray Manufacturing Company. Established in 2008 as Pratik Enterprises with small business, now we are a private limited company. We are appreciates the trust of our customers and strives to provide the most convenient conditions of cooperation and stable product quality. We also appreciate and thankful for our expert employee team. We have carved a distinct niche in the market owing to the specialized skills, commitments, and dedications of our workforce.

Pratik Cabletray System Private Limited is situated at Kasurdi (Khed Shivapur Baug), Pune Maharashtra INDIA. The company is engaged in the business of manufacturing of wide range of cable trays. We are manufacturing all types of cable tray like Perforated, Ladder, Raceway / Box Type, Cable Duct and Wire Mesh Type Cable tray in (Pre Galvanized, Hot Dip Galvanized, MS, SS, Aluminium, Powder Coated and Painted), with all accessories of cable tray and provide all related supporting accessories as per customer's requirements. We serve our product to sugar Industries, Chemical Industries, Oil & Gas Industries, Milk Food Industries, Refrigeration Stores, Cement Plants and Solar Project etc. we have also export our material to out of country.

The company is committed quality and continually seeks improvement of its ISO 9001:2015 and 14001:2015 management systems and provide quality products at competitive rates and efficient service. This has become the contributory factor to comment a major local market share and establish a strong industrial export market position.

Quality Check & Delivery

• WHY CHOOSE US •

- QUALITY ASSURANCE
- WIDE RANGE OF PRODUCTS
- EXPERIENCED TEAM
- CUSTOMER-CENTRIC APPROACH
- TIMELY DELIVERY
- COMPETITIVE PRICING

ISO 9001:2015 CERTIFIED

Quality Management System ensuring consistent quality and customer satisfaction.

CE CERTIFIED

Complies with European safety, health, and environmental protection standards.

EIL APPROVED

Approved as per Engineers India Limited standards for reliable industrial applications.

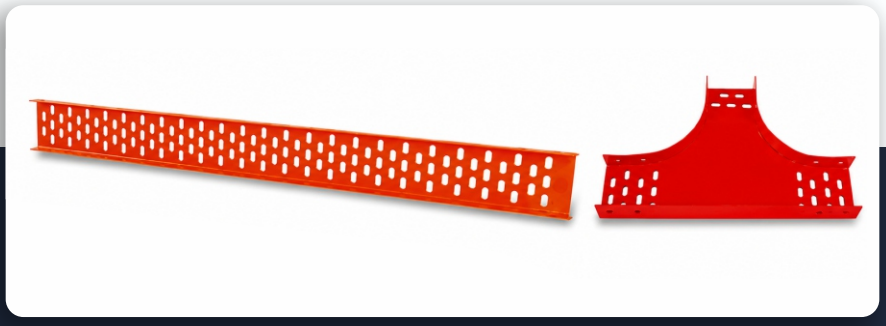

MSETCL APPROVED

Approved by Maharashtra State Electricity Transmission Company Limited for quality and performance.

PERFORATED TYPE CABLE TRAY [PTCT]

Designed for versatile industrial and commercial installations, our Perforated Cable Trays offer excellent ventilation and cable support with streamlined routing.
The evenly spaced perforations enhance airflow, reduce heat buildup, and minimize dust accumulation — improving system reliability.

Key Features :

- ✔ Our Cable Tray Helps in Carrying cable through separate Channels.
- ✔ Specifically meant for easy access of cables in case of repair or modifications.
- ✔ Not required drilling or welding and also can be quickly installed.

Specifications :

- ✔ Perforated Cable Tray available with Cover/without Cover/
- ✔ with all accessories.
- ✔ Length - 2500mm/3000mm
- ✔ Height - as per required
- ✔ Width - as Per required
- ✔ Thickness - 18swg, 16swg, 14swg, 12swg, 10swg Etc.

BOX TYPE CABLE TRAY

Our Box Type Cable Trays offer complete enclosure, protecting cables from dust, moisture, and environmental influence — perfect for sensitive systems and controlled environments.

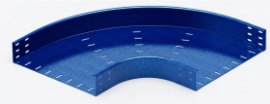

Advantages :

- ✔ Full cable protection from external contaminants
- ✔ Enhanced safety for critical wiring
- ✔ Strong structural build for demanding sites

Box Tee

Box Horizontal Bend

LADDER TYPE CABLE TRAY

Built for demanding cable loads and long-span installations, our Ladder Type Cable Trays excel in industrial environments. The sturdy side rails and rungs provide maximum strength and facilitate easy cable pulling and inspection.

Highlights :

- ✔ Exceptional load-bearing capacity
- ✔ Excellent ventilation for power cables
- ✔ Ideal for long cable runs and heavy electrical systems

Ladder Cross

Ladder Tee

Ladder Horizontal Bend

Vertical Inside Bend

Vertical Outside Bend

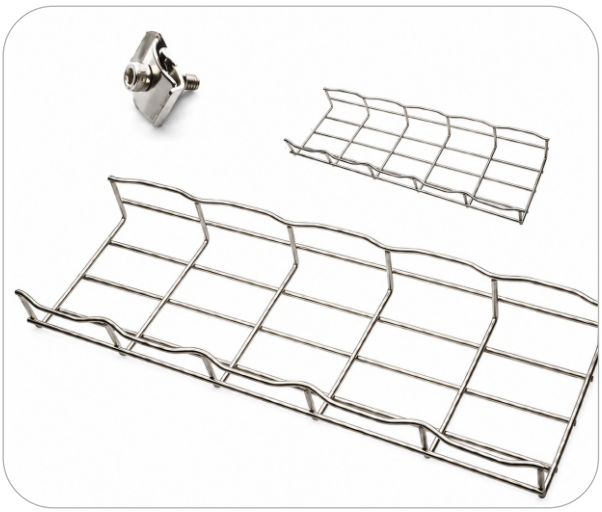

Applications : Power Plants, Factories, Substations, Heavy-duty Industrial Wiring

Features :

- ✔ Our Cable Tray Helps in Carrying Cable through separate Channels.
- ✔ High strength
- ✔ Easy installation
- ✔ Ladder Type Cable Tray available with Cover/without Cover/ with all accessories.
- ✔ Length - 2500mm/ 3000mm
- ✔ Height - as per required
- ✔ Corrosion resistant
- ✔ Optimum quality
- ✔ Width - as Per required
- ✔ Thickness - 16swg, 14swg, 12swg, 10swg Etc.

WIRE MESH TYPE CABLE TRAY [WTCT]

Wire Mesh Cable Trays offer a smart and efficient solution for modern cable management. Designed for sensitive and critical cable applications, they provide excellent ventilation, easy accessibility, and quick installation with minimal accessories. Their open-mesh design helps maintain cable performance while ensuring a clean, organized, and reliable routing system.

Features :

- ✔ Wire Mesh Cable Tray is best solution for Cable management especially for sensitive cable application.
- ✔ Easy to use between critical cable lines.
- ✔ Wire Mesh Cable Trays lies in convenient mounting applying minium accessories as well as excellent ventilation of the cable routing.

Specifications :

- ✔ Height - 50mm To 150mm
- ✔ Width - 50mm To 600mm
- ✔ Length - 2000mm
- ✔ Thickness - 4mm, 5mm & 6mm Etc.

FRP CABLE TRAY

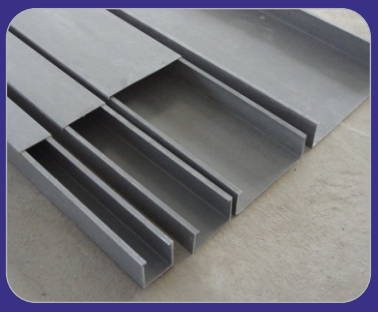

Our Fiber Reinforced Plastic (FRP) Cable Trays combine strength with resistance to corrosion and harsh environments - ideal for chemical plants, outdoor sites, and marine installations.

Key Benefits :

- ✔ Corrosion and weather resistant
- ✔ Lightweight yet robust
- ✔ Long lifespan in challenging conditions

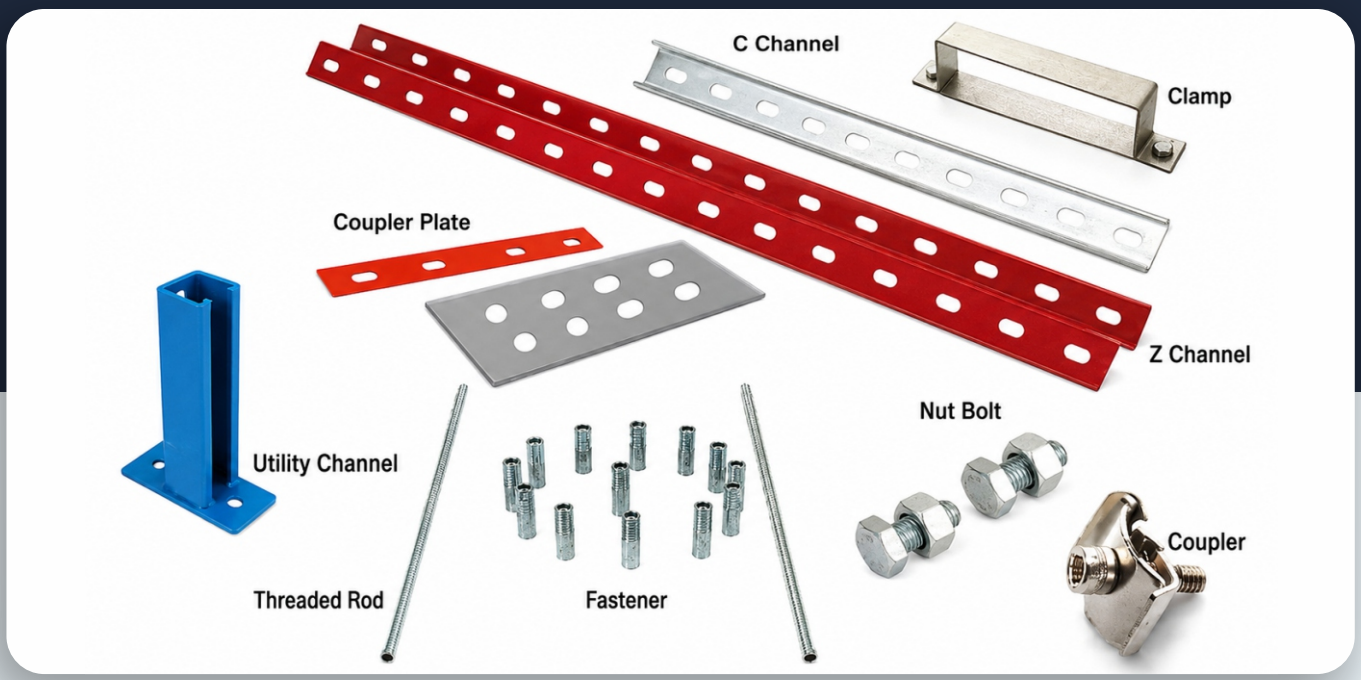

CABLE TRAY ACCESSORIES

Our Cable Tray systems form the backbone of reliable cable infrastructure in industrial, commercial, and infrastructure projects. Engineered to support, organize, and protect electrical power, control, and data cables, cable trays enable efficient routing while reducing installation time and future maintenance challenges.

All Type of Cable Tray in Pre Galvanized, Hot Dip Galvanized, MS, SS, Aluminium, Powder Coated & Painted with all accessories

EARTHING GI & COPPER STRIP

In electrical earthing systems, GI strip and Copper strip are commonly used as earthing conductors to connect equipment or earthing electrodes to the ground grid. They differ mainly in material, conductivity, corrosion resistance, and cost.

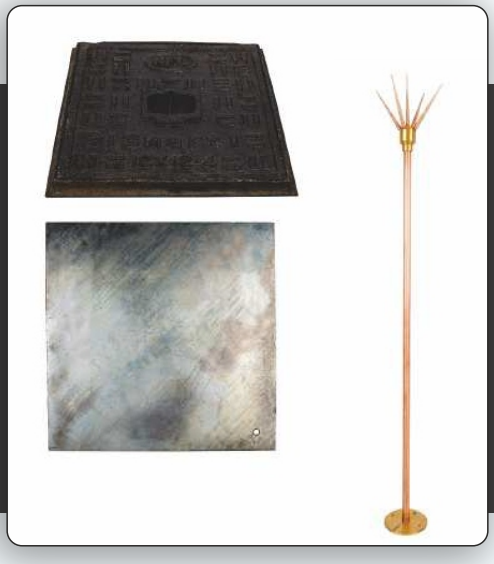

Properties :

- ✔ Lower electrical conductivity than copper
- ✔ Moderate corrosion resistance
- ✔ Strong and mechanically durable
- ✔ Much cheaper than copper

EARTHING & ERECTION MATERIALS

- Gi Earthing Strip/Flat
- Gi Plate
- Gi Wire
- Gi Pipe with Accessories
- Copper Strip/ Flat
- Copper Plate
- Copper Wire
- Copper Tube/ PVC Coated
- Lighting Arrester
- Bentonite Powder
- Charcoal
- Salt

JUNCTION BOX, LPBS & PANEL (FLAMEPROOF/WEATHER)

- Local Push Button Station(Flameproof/Weatherproof)
- Junction Box (Flameproof/Weatherproof)
- Rotex Switch
- Pole Box

GI FOUNDATION BOLTS

GI Foundation Bolts (Galvanized Iron foundation bolts) are heavy-duty fasteners used to anchor structural elements to concrete foundations. They are commonly used in steel structures, machines, transmission towers, light poles, and industrial equipment foundations.

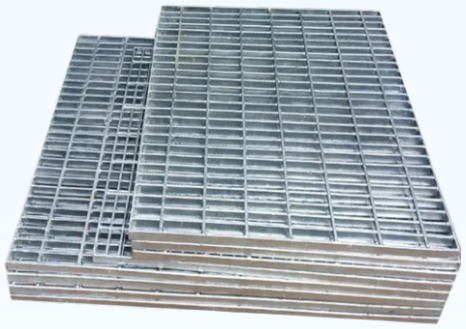

Benefits :

- ✔ Corrosion Resistance
- ✔ Strong Structural Support
- ✔ Low Maintenance Cost
- ✔ Long Service Life
- ✔ High Load Carrying Capacity
- ✔ Easy Installation

HOT DIP GI GRANTING

Hot-dip galvanizing is a process where iron or steel is coated with a layer of zinc by dipping it into molten zinc. This protects the metal from rust and corrosion.

Benefits :

- ✔ Excellent Corrosion Protection
- ✔ Low Maintenance Cost
- ✔ Long Service Life
- ✔ Strong Coating Bond

SOLAR SUPPORTS & UTILITY CHANNEL

Solar supports and utility channels are structural components used to mount solar panels and support electrical installations in solar power projects.

Benefits :

- ✔ Provides strong support for solar panels
- ✔ Protects panels from wind loads
- ✔ Keeps panels at the correct tilt angle
- ✔ Ensures long life (20–25 years)

CABLE CRIMPING TOOLS

Cable Gland
(Double/Single Compression)

Cable Lugs
(Copper/Aluminium)

GI PIPE/CONDUIT FITTINGS

SS/MS TUBE OD FITTING & INSTRUMENTATION FITTINAS

- ✔ Manifold (Type-T,H, Block)
- ✔ Connector (F/M)
- ✔ Branch Tee
- ✔ BulkHead Union
- ✔ Cross
- ✔ BulkHead Reducing Union
- ✔ Front & Back Ferrule
- ✔ Tube End Closure
- ✔ Socket
- ✔ Needle Valve
- ✔ Male Elbow
- ✔ Coupling End
- ✔ PU Fitting
- ✔ Union

WE SERVE OUR PRODUCT TO THE INDUSTRIES

Solar

Mobile Tower

Sugar Industry

Metro

Water Treatment

Cement Factory

Refrigeration

Milk Food

QUALITY YOU CAN TRUST

Our trays are manufactured with premium materials — from Pre-GI and Hot Dip GI to MS, Stainless Steel, Aluminum, and Powder-Coated finishes — ensuring performance that meets and exceeds industry standards.

Applications Across Industries :

- ✔ Industrial Plants
- ✔ Commercial Complexes
- ✔ IT & Data Centers
- ✔ Food Industries
- ✔ Oil & Gas Installations
- ✔ Renewable Energy Sites
- ✔ Large Infrastructure Projects
- ✔ Pharma Industries

Certified & Reliable :

ISO-certified manufacturing for consistent quality, delivered on time with dedicated support from planning through installation.

Product Range :

- ✔ Perforated Cable Tray Systems
- ✔ GJ foing & Earthing Systems
- ✔ Ladder Type Cable Tray Systems
- ✔ FRP Cable Tray Solutions
- ✔ Cable Glands & Cable Lugs
- ✔ Wire Mesh Cable Tray Systems
- ✔ SS/MS Pipes & Instrumentation Fittings
- ✔ Complete Turnkey Engineering Solutions

EXPERTISE

- PAN-INDIA SERVICE NETWORK
- READY STOCK OF LT & HT USED MOTORS
- TRUSTED ELECTRICAL & INDUSTRIAL SOLUTIONS PROVIDER
- QUALITY-DRIVEN, RELIABLE, AND INNOVATIVE
- FAST DELIVERY WITH STRONG AFTER-SALES SUPPORT
- CUSTOMER-FOCUSED, COMPETITIVELY PRICED
